

The Australian Pipe Company

# Box Culverts

RCPA is the leading Australian manufacturer of U-Culverts and Full Box-Culverts using the dry cast manufacturing process.

The process utilises computer control batching and filling, laser control levelling and a number of advancements to deliver high quality, high performance products. An added advantage of the method of

manufacture adopted by the solely owned Australian Company is the ability to manufacture Full Box-Culverts (4 sided) as well as the traditional large box culverts.

- Exceptional dimensional accuracy
- High performance products
- Reliable and high production rates
- Controlled under cover environment

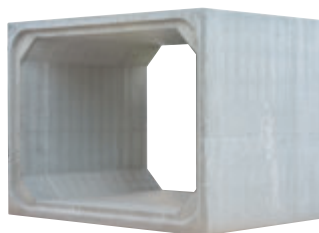

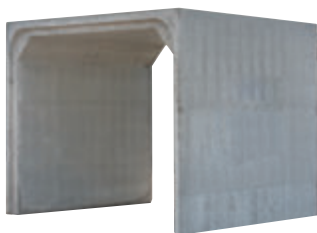

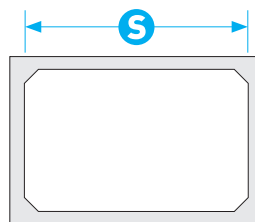

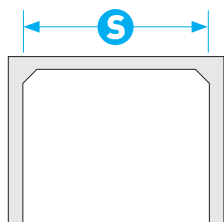

Quality  
ISO 9001

### U-Culvert

### Full Box-Culvert

<b>Crown Span S</b>	1500mm to 3000mm	1500mm to 3000mm
<b>Leg Length</b>	900mm to 2700mm	1800mm to 2700mm
<b>Leg Thickness</b>	145mm to 165mm	145mm to 165mm
<b>Link Slab</b>	1500mm and above	1500mm and above

#### Applications

- Bridging
- Conduits
- Water Detention
- Pedestrian Underpasses
- Service Tunnels

#### Joining

- Improved rebated joint (similar to flush joint pipe)
