

RCPA offers **FRC**PIPE, an innovative reinforced concrete pipe designed to meet a 100 year service life.

FRCPIPE concrete pipes are manufactured using a high strength, light weight reinforced concrete composite. This high-performance stormwater drainage pipe is ideal for road drainage as well as commercial developments.

Precision Joint Technology provides a highly accurate machine joint, with allowable variation of less than 1mm on all pipe sizes. This smart technology allows for easy pipe installation and can be combined with other jointing options for a smart solution to challenging situations.

Fast. Smart. Proven. Strong.
