

FRCPIPE R+

RCPA offers **FRCPIPE R+**, an innovative reinforced concrete pipe designed to meet a 100 year service life.

Developed to meet specific rigid pipe specifications for Qld TMR and VicRoads, **FRCPIPE R+** concrete pipes are manufactured using a high strength, light weight reinforced concrete composite. This high performance stormwater drainage pipe is ideal for road infrastructure as well as residential and industrial subdivisions.

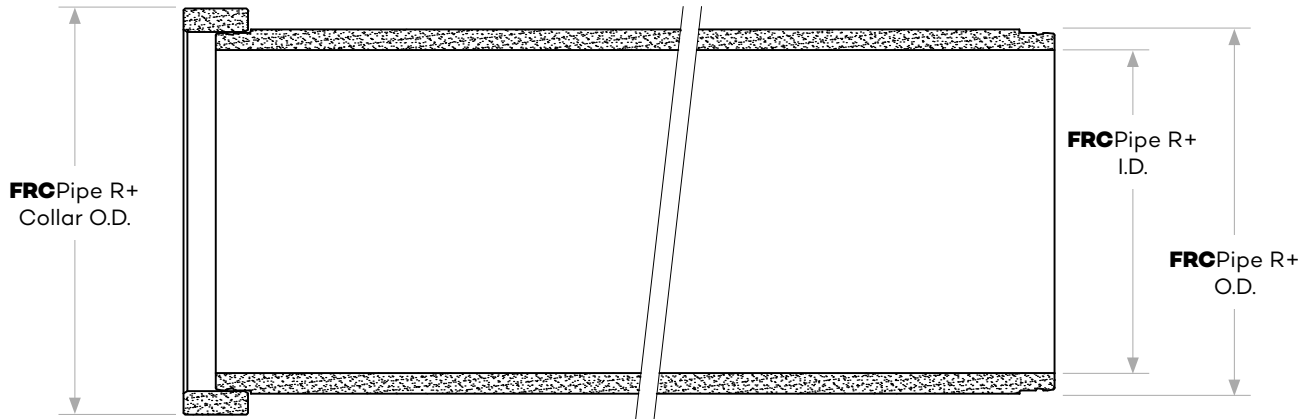

The **Dual Rubber Ring Joint with Collar** is a robust, precision machined joint utilising a separate collar. This provides excellent resistance to in-ground settlement during installation. This, combined with the **FRCPIPE R+** core DNA, delivers a reinforced concrete pipe that is quick to install and proven to last.

450	455	580	523	538	550	364	447	515
525	532	670	611	629	644	491	607	706
600	608	755	699	720	n/a	644	799	n/a

*Dimensions and weights subject to change

- Easy pipe assembly – low insertion forces mean less effort to join pipes
- Dual v-ring collared joint
- High strength joint
- Compliant with QLD Main Roads - MRTS26
- Compliant with VicRoads - Section 701
- **FRC**Pipe R+ comply with AS4139-2003
- **FRC**Pipe R+ is marine grade as standard
- Nominal length is 4m
